Re: General Order 88-B Request for Authority to Modify the Grade-Separated Highway-Rail Crossing at Long Beach Freeway (I-710) Overpass, Identified as CPUC Crossing No. 002-148.10-AC and DOT No. 027750N, in the City of Commerce, Los Angeles County

Dear Mr. Johnson:

This refers to your letter dated April 17, 2017, received by us on April 20, 2017, requesting authorization pursuant to California Public Utilities Commission (Commission) General Order (GO) 88-B, to modify the Long Beach Freeway (I-710) grade-separated highway-rail crossing (crossing) over the BNSF Railroad Company (BNSF) Pacific Way rail tunnel, in the City of Commerce, Los Angeles County. The crossing is identified as CPUC Crossing No. 002-148.10-AC and DOT No. 027750N.

The crossing is a ten-lane bridge structure, with five northbound and five southbound lanes, that crosses over the BNSF Pacific Way rail tunnel. BNSF owns the right-of-way of the tunnel. There is no train traffic and the track is abandoned and disconnected. To enhance motorists and maintenance personnel safety, the California Department of Transportation (Caltrans) plans to widen each side of I-710 bridge structure by approximately 16 feet, to increase travel lanes and shoulders widths and establish maintenance pullout areas.

The crossing will be closed to all rail traffic during construction. The proposed vertical permanent clearances will be 23 feet 3 inches on the west and 24 feet 2 inches on the east sides over the rail tunnel respectively. The horizontal clearance will be 9 feet 10 inches from the centerline of track to the tunnel structure. All proposed permanent clearances comply with Commission GO 26-D minimum clearance requirements.

The Commission's Rail Crossings and Engineering Branch (RCEB) investigated the request by Caltrans and finds it adequately addresses compliance and safety. As Caltrans and BNSF are in agreement as to the design and apportionments of the cost under the provisions of GO 88-B, the

improvements as described in your request letter dated April 17, 2017, and summarized above, are authorized. All parties shall comply with all applicable rules, including Commission General Orders and the current version of the CA Manual on Uniform Traffic Control Devices (MUTCD), published by Caltrans. Caltrans must complete all the proposed alterations mentioned above for RCEB to consider this GO 88-B application closed.

Temporary traffic controls shall be provided in compliance with the current version of the CA MUTCD

This project is statutorily exempt from the requirements of the California Environmental Quality Act of 1970, as amended [California Public Resources Code §21080.13].

This authorization shall expire if the above conditions are not complied with, or if the work is not completed, within three (3) years of the date of this letter. Upon written request to RCEB, the time to complete the project may be extended. Any written request for a time extension must include concurrence letters by involved parties in support of the time extension. If an extension is requested, RCEB may re-evaluate the crossing prior to granting an extension.

Within 30 days after completion of this project, Caltrans and/or BNSF shall notify RCEB that the authorized work is completed, by submitting a completed Commission Standard Form G titled *Report of Changes at Highway Grade Crossings and Separation*. Form G requirements and forms can be obtained at the Commission web site at <http://www.cpuc.ca.gov/Crossings>. This report may be submitted electronically to rceb@cpuc.ca.gov as outlined on the web page.

At the conclusion of the project, BNSF should electronically submit an updated Federal Railroad Administration (FRA) inventory form (Form F6180.71) to the FRA, reflecting the changes. Commission requests a concurrent copy of the updated inventory form be submitted to rceb@cpuc.ca.gov.

If you have any questions, please contact Chi Cheung To at (213) 576-5766 or at cct@cpuc.ca.gov.

Sincerely,

Anton Garabetian, P.E.
Program and Project Supervisor
Rail Crossings and Engineering Branch
Safety and Enforcement Division
