Re: General Order 88-B Request for Authority to Alter the Castro Street and Rengstorff Avenue Rail Crossings

Dear Aaron Marx:

This refers to your letter dated May 28, 2024, received by us on May 28, 2024, requesting authorization, pursuant to California Public Utilities Commission (Commission/CPUC) General Order (GO) 88-B, to alter the Castro Street and Rengstorff Avenue rail crossings of the Peninsula Corridor Joint Powers Board (Caltrain) tracks, in the City of Mountain View (City), County of Santa Clara. Caltrain submitted the required concurrence on June 11, 2024.

The crossings are identified as:

Crossing Name	CPUC Crossing Number	DOT Number
Castro Street	105E-35.80	755015B
Rengstorff Avenue	105E-34.61	755013M

Castro Street is a Northeast-Southwest, five-lane roadway that consists of two main tracks. The Castro St crossing is equipped with two curb-mounted Commission Standard 9 (Flashing Light Signal Assembly with Automatic Gate Arm) warning devices, two median-mounted Commission Standard 9 warning devices, four curb-mounted Commission Standard 9 pedestrian gate warning devices, and a pre-signal.

Rengstorff Avenue is a Northeast-Southwest, six-lane roadway that consists of two main tracks. The Rengstorff Avenue crossing is equipped with two curb-mounted Commission Standard 9 warning devices, two median-mounted Commission Standard 9 warning devices, and four curb-mounted Commission Standard 9 pedestrian gate warning devices.

The Commission's Rail Crossings and Engineering Branch (RCEB) reviewed the request by Caltrain. As the City and Caltrain agree on the alterations and apportionment of costs under the provisions of GO 88-B, the following alterations as described and specified in the request letter and its attachments are authorized:

- Install In-Service Wayside Crossing Controller Programming Application Logic update to integrate positive train control (PTC) crossing controls with the grade crossing warning system.

Temporary traffic controls shall be provided in compliance with the California Manual on Uniform Traffic Control Devices (CA MUTCD), published by the California Department of Transportation. All parties shall comply with all applicable rules, including Commission General Orders and CA MUTCD.

This authorization shall expire if the full scope of alterations is not complete within three years of the date of this letter. Caltrain may request a time extension at least 30 days prior to the expiration date. The time extension request shall include evidence of agreement by involved parties. This authorization may be revoked or modified if public convenience, necessity, or safety requires.

This project is categorically exempt from the requirements of the California Environmental Quality Act of 1970, as amended. [California Public Resources Code §21084].

The following requirements pertain to this authorization:

- The crossing shall have the configuration and operational characteristics as described and specified in the request letter and its attachments.
- At least 45 days prior to the date that the new or modified train detection is placed in service, Caltrain shall notify RCEB of the scheduled date of the signal cutover by sending notification to rceb@cpuc.ca.gov.
- Within 30 days after the authorized scope of alterations is complete, Caltrain shall notify RCEB of the alterations by submitting a Form G to rceb@cpuc.ca.gov. Form G requirements and forms are available on the CPUC web site at <http://www.cpuc.ca.gov/crossings>.
- Caltrain shall electronically submit an updated Federal Railroad Administration (FRA) inventory form (Form F6180.71) to the FRA per 49 C.F.R. § 234.411(c).

If you have any questions, please contact Eyitejumade “Ade’ Sogbesan at (415) 471-6784 or es3@cpuc.ca.gov.

Sincerely,

Matthew Bond, P.E.
