

**Question(s):**

**3157.00:** Please provide updated data or an explanation as to why there is such a great discrepancy in the data that was previously provided by.

**Response:**

Please see the attached updated summary analysis of distribution leak activity from 2007 through 2011 below. Unfortunately, some of the data referenced in this request and provided to the CPSD in May 2012 was in error. Some of the data fields in the beginning and ending of year 2010 were not properly filtered and thus yielded incorrect information. It was discovered that the information for 2010, both beginning and end of the year, included all previous and post year's data, and not just the data for 2010. As well, there were small miscalculations in years 2008, 2009 and 2011 for the "Leaks at the End of Year", and in 2011 for "Leaks Repaired."

The updated leak activity summary below corrects the above mentioned errors.

Updated Distribution Leak Activity Summary:

Year	Beginning of Year	Leaks Found	Leaks Repaired	Leaks Cleared	Total Leaks in the Year	Leaks at the End of Year
2007	16,309	10,088	7,348	2,854	16,195	16,190
2008	16,190	25,197	17,331	3,950	20,106	20,127
2009	20,127	84,102	55,908	7,783	40,538	40,534
2010	40,534	38,271	18,477	11,198	49,130	49,133
2011	49,133	27,300	15,965	6,063	54,405	54,402

Original Distribution Leak Activity Summary Data previously supplied to CPSD:

Year	Beginning of Year	Leaks Found	Leaks Repaired	Leaks Cleared	Total Leaks in the Year	Leaks at the End of Year
2007	16309	10088	7348	2854	16195	16190
2008	16190	25197	17331	3950	20106	20130
2009	20127	84102	55908	7783	40538	40538
2010	142293	38271	18477	11198	150889	180403
2011	49133	27300	15964	6063	54406	54406
