2.2.3 RATES AND CHARGES FOR CATEGORY III SERVICES

A. RATES AND CHARGES

1. Rates and charges for Category III Services are set forth in the applicable product specific tariff sheets and in agreements. Rates and charges for Category III Services provided under agreement may not exceed the maximum level set forth in the applicable product specific tariff sheets.

2. Customer may order multiple units of Category III Services. To receive any applicable discount Customer must order a minimum number of units. If Customer later deletes units and uses less than the minimum number, Customer will be charged for the minimum number of units per order. (N)

B. CHANGES TO RATES AND CHARGES

1. Utility may adjust the current rates and charges for a Category III Service by filing revised tariff sheets. Provided these new rates and charges are below the approved maximum level, the tariff sheets will become effective upon the first calendar day after the filed date, and parties may not protest the adjustment. If the adjustment is greater than the maximum level, the revised tariff sheets will also adjust the maximum levels, pursuant to D2.2.3,B.2.

2. Utility may change the maximum level by filing tariff sheets.

a. Revised tariff sheets which reduce the maximum level of rates and charges will become effective upon the first calendar day after the filed date. These reductions will be considered temporary tariffs. Absent a protest within the twenty calendar day period, the temporary status of the tariff will automatically become permanent. If a protest is filed, the tariff will remain a temporary tariff until the protest is either withdrawn or resolved by the Commission.

b. Revised tariff sheets which increase the maximum level of rates and charges by 5 percent or less will become effective upon the fifth calendar day from the filed date. These increases will be considered temporary tariffs. Absent a protest within the twenty calendar day period, the temporary status of the tariff will automatically become permanent. If a protest is filed, the tariff will remain a temporary tariff until the protest is either withdrawn or resolved by the Commission. Pacific will refund the difference between the current rate under a temporary tariff and the Commission-allowed maximum rate should a protest of the temporary tariff result in non-approval of the new proposed maximum level.

Absent a protest, such tariffs will become effective upon the thirtieth calendar day after the filed date. If a protest is filed, the tariff will be considered a temporary tariff, effective upon the thirtieth calendar day after the filed date. When a protest is filed, the tariff will remain a temporary tariff until the protest is either withdrawn or resolved by the Commission.
