COMPETITIVE LOCAL CARRIER TARIFF
G8. ACCESS SERVICES

8.2 HIGH CAPACITY SERVICE

8.2.1 TERMS AND CONDITIONS

- A. All terms and conditions relating to the individual service offerings found in this tariff schedule as specified on the List of Services (G3. preceding) can be found in the tariff schedule indicated next to that service. Except where otherwise specified, all of these terms and conditions are applicable to the provisions of service from this tariff. (T)
- B. All rates and charges may be adjusted at a later date.
- C. The Channel Mileage rate is applicable when a High Capacity Service connects a customer designated premises to a Fast Packet Service and the customer serving wire center is not capable of providing the Fast Packet Service. The mileage will be measured from the customer serving wire center to the nearest wire center equipped with Fast Packet Services capabilities; this wire center may be in Pacific Bell service territory.
- D. The Channel Mileage rate is not applicable when a Primary Rate ISDN or SuperTrunk service connects a customer designated premises via a Utility collocation arrangement to the Utility's serving wire center. (N)

G8. ACCESS SERVICES

8.5 SONET RING AND ACCESS SERVICES (Cont'd)

8.5.2 DEFINITION OF TERMS

Types of Connections for Primary Node Links and Central Office Access Ports:

STS1/DS1: provides for 28 DS1 (Local Loop Access Links - copper or Fiber Advantage) services from the customer's premises to the central office Digital Crossconnect System onto the STS-1 interface.

STS1/DS3: provides for DS3 to DS3 crossconnect of Local Loop Access Links or Fiber Advantage service from the customer's premises to the central office onto the STS-1 interface.

STS1 hardwired for DS3: provides for DS3 services from the customer premises through the central office bypassing all electronic crossconnect equipment (Capacity is one DS3).

8.6 VIDEO SERVICE

(N)

8.6.1 BASIC CHANNEL DESCRIPTION

A Video channel is a channel with one-way transmission capability for a standard 525 line/60 field monochrome, or National Television Systems Committee color, video signal and one or more associated audio signal(s) as described below. The provision and the bandwidth of the associated audio signal(s) is a function of the channel interface selected by the customer. Video channels are provided between customer designated premises via a Utility Video Hub.

The technical specifications and compatible channel interfaces are set forth in Technical Reference PUB 62504, GR-338-CORE and L-720026 PB/NB. The Utility will conform to the transmission specification standards contained in the Technical References for each service. A customer may accept a Video Service that does not conform to transmission specification standards but will not be eligible to receive a Credit Allowance for Service Interruptions as described in Section 2.4.4 of Schedule Cal.P.U.C 175-T.

A. ANALOG VIDEO SERVICE

The bandwidth for analog video service is either 30 Hz to 4.5Mhz or 30 Hz to 6.6 MHz. The associated audio signal(s) may be either diplexed or provided as one to four separate channels.

8.6 VIDEO SERVICE (Cont'd)

(N)

8.6.2 REGULATIONS

A. MINIMUM PERIODS

The minimum service period for full-time Video Service is one month. The minimum service period for part-time and occasional Video and Program Audio services is one day (i.e., a continuous 24-hour period not limited to a calendar day), even though the service will be provided only for the duration of the event specified on the order (e.g., one-half hour, two hours, five hours, etc.).

B. SERVICE ORDERING

The regulations for Ordering Video Service are set forth in Schedule Cal.P.U.C. 175-T, Section 5, Ordering Options. Where rates are not specified in this Schedule, the rates stated in 175-T shall apply.

C. SERVICE CONFIGURATION

There is one type of service configuration over which Special Access Video Service is provided: two-point service.

1. Two-Point Service

A two-point Video service connects two customer-designated premises either directly or through a Utility Hub.

D. BILLING REGULATIONS

The rules and regulations for billing these Video Services are set forth in Schedule Cal.P.U.C. 175-T, Section 7.4.

8.6 VIDEO SERVICE (Cont'd)

(N)

8.6.3 VIDEO HUBS

The Utility will designate certain Hubs for Video Services. Full-time service provided between customer designated premises and a Hub will be billed accordingly at the monthly rates set forth following for a Channel Termination, Optional Features and Functions, and Channel Mileage, as applicable. The rate elements required to provide the part-time or occasional service (i.e., Channel Termination, Optional Features and Functions, and Channel Mileage, as applicable) will be billed at daily rates for the duration of the service requested.
