Spring 2015 Mobile Field Test Results, Interpolated mean throughput minus two standard deviations. Broadband availability data collected by the California Public Utilities Commission (CPUC). The CPUC defines "broadband service" as Internet connectivity with download / upload speeds of at least 768 Kbps / 200 Kbps. Such service is considered "available" if the provider can provision new requests for service within 10 business days.

Household data from the California Department of Finance, January 1, 2015 estimate.
