Exp in Digital Literacy: Community Technology Network (CTN) has been involved in delivering digital literacy programming since its inception as a nonprofit in 2008. They currently have over 30 partners who rely on them to offer 10,000 hours of training yearly to underserved commu

Project Name: Dr. George W. Davis Senior Residence

Project Location:

Street: 1751 Carroll Avenue

City: San Francisco

State/Province: California

Zip/Postal Code: 94124

Rural? No   Number Units: 120

Currrent Wired: 120   Number Residents: 130

Funds Requested

Grant: $44,650.00   Loan: $0.00

Budget Detail:

Total Budget: $62,650.00   Grant Total: $44,650.00

Matching Funds: $18,000.00

Details:

Wiring to be done:

All units are wired

Training Hours:

Residents will be required to attend 8 hours of training. Learners will have the option of attending a weekly class or working on their own with the help of a tutor.

Training Location:

Trainings will be held within the complex at Dr. George W. Davis Senior Center in Senior Center PLUS

Technical Support:

Contract with ReliaTech support to provide service within a 48 hr response time

Adoption Activities:

The project will fund a needs assessment to understand what types of classes the residents would be interested in attending so we can best customize a training program to meet their needs. We will conduct outreach through special events, flyers, and regular communication given through our service coordinators. We will strive to reach each resident so they know about the opportunity to begin using their new laptop and internet at home. The project will also fund a paid training coordinator who will offer at least four hours of training a week as well as ongoing community outreach. We will partner with Community Technology Network who will recruit, train and support volunteers to offer an additional 4 hours a week of drop-in support.

Curriculum:

We will utilize curriculum developed by Community Technology Network made specifically for older adults and has already been translated into Spanish and Chinese. This can be found on their Volunteer Learning Center (https://ctnvolunteerlearning.wikispaces.com/) as well as other useful tools for managing and maintaining a successful computer training program. There is a robust selection of websites with self-paced training that will be utilized. Some of which include:http://digitallearn.org/http://learnfree.org/https://www.digitalliteracyassessment.org/http://driveyourlearning.org/http://myjobscout.or

Provided Devices:

Comcast Internet Essentials donated new HP Laptops to all residents living at the Dr. George W. Davis Senior Residence

Economic Lives

New HP Laptops

Details:

Wiring to be done:

All units are wired.

Training Hours:

Each participant will receive a minimum of 8 hours of training. Three sessions of the beginning class will be offered to reach a maximum number of residents over a one year period.

Training Location:

The classes will be held in the community room and the computer lab onsite.

Technical Support:

Residents may request technical support from the instructor during his/her regular working hours, or through phone or email. A warranty for each device will also be purchased. Response time will be within the required 48 hours.

Adoption Activities:

First Community Housing strives to provide low and extremely low income residents with the opportunity to access the benefits of the internet and technology. Internet access can facilitate new methods of communication for the residents and can also connect them to online opportunities, such as learning tools, jobs, health information, etc. This project will involve reaching out to residents through formal letters as well as flyers in common areas. All residents are not expected to participate in the program; about 50 residents are expected to participate. Residents that choose to participate in the program will enroll in an eight session, 1.5 hour, class. The residents that complete at least 8 hours of the class will be given a tablet to keep. A Part time

Curriculum:

The curriculum will be based on the lessons provided on GCFLearnFree.org. The Goodwill Foundation has set up an online digital literacy curriculum with a wide range of lessons for beginners, including computer basics, internet basics, social media basics, and much more. The instructor will use this curriculum as a base for lesson planning.

Provided Devices:

First Community Housing will provide each participant with a tablet. The resident must, however complete at least 8 hours of the class. The device will be new and have a 1 year warranty.

Economic Lives

1. 20 Tablets, 4 years useful life. 2. Projector, 5 years useful life. 3. Printer, 4 years useful life.

Funds Requested

Grant: $12,798.00   Loan: $0.00

Budget Detail:

Total Budget: $15,056.00   Grant Total: $12,798.00

Matching Funds: $3,087.00

Details:

Wiring to be done:

Wired access will be available through 7 computer stations in the on-site community building. Wired access is currently available to all residents by entering into an agreement with a provider for individual service.

Training Hours:

The RSC will teach 24 hours of computer basics and an addl 40 - 60 hours will be provided from volunteers in the community who will come onsite to teach classes. In addition, each resident is encouraged to meet with the RSC one-on-one to receive help.

Training Location:

Classes will be held in the Computer Lab located on the first floor of the community building, which is on-site at Ceres Court apartments.

Technical Support:

Technical support will be provided by Synoptek, the vendor that is doing the installation of the computers at the facility. Synoptek provides a 24-hour response time for technical problems.

Adoption Activities:

The project will fund expanded connectivity for residents through faster internet service, a doubling of the number of computer stations and printing capacity, and an expansion of the curriculum of on-site computer classes and support. In addition, the project will refurbish and expand an existing computer lab at Ceres Court Apartments in Fontana, California. Ceres Court is a 64 unit affordable housing community that was opened for occupancy in 2008. Utilizaton of the After School program currently offered in the community center is limited by number of computers, which have obsolete and outdated programs and operating systems. Additional computers will help accommodate the After School program and will also free up access for adult

Curriculum:

The RSC, Ms. Price, developed her own curriculum for the Computer Basics course. Please see attached for the curriculum. The existing computers now run on a Windows 7 operating system, which makes teaching computer classes and running more sophisticated software based learning programs difficult because of reduced processing speed and frequent system crashes. The project will more than double the number of computers and printers and will significantly increase the operating speed while reducing system failures. Using new Microsoft Office software, Ms. Price will be able to teach an updated Computer Basics Workshop with greater effectiveness and increased capacity. She will also utilize Jamboree's new volunteer website,

Provided Devices:

Residents are responsible for obtaining their own computer equipment and arranging for individual wired access in their apartments. Applicant will provide wired access for all residents of the community by establishing 7 individual computer stations with 2 printers at the community building. The community building is open 7 days a week during regular business hours.

Economic Lives

Project will provide for 7 computers with accompanying keyboards and mouse, 7 monitors, 2 printers and the related cabling, all with an estimated useful life of 3 to 5 years

Grant: $50,000.00   Loan: $0.00

Budget Detail:

Total Budget: $57,500.00   Grant Total: $50,000.00

Matching Funds: $7,500.00

Adoption Activities:

The project will fund the procurement of computer equipment critical to the ongoing training and personal improvement of residents of the Phoneix Park community. Funds will be used to purchase 24 complete computer stations that will serve to update existing facilities. This will be paired with ongoing computer literacy and after school courses put on by a local non-profit called Focus on Family (http://www.focusonfamilysacramento.com/index.html) so that community residents can continue to take steps toward computer literacy.

Curriculum:

Adult Education Classes-ESL Class: Course introduces to basic structures and vocabulary.-Citizenship Class: Course prepares students to take each section of the US Citizenship Test.-Computer Applications: Course designed to teach students how to use a computer.-Job Skills: Course is self-contained special education class for students with disabilities.-Resume Writing: Couse teaches students how to prepare and modify their resumes.-Adult Basic and Secondary Education: Course builds upon education in mathematics, writing and reading.Youth Education Classes-Expanded Learning Program: Homework assistance and educational enrichment.-Head Start: Course teaches students how to read with online reading

Provided Devices:

NA, all units will be housed and maintained at the main computer lab facility.

Economic Lives

0

Details:

Wiring to be done:

NA, all units are wired.

Training Hours:

Adult education classes are held Monday, Wednesday and Friday between 9AM-12PM. Youth education classes are held Monday through Friday from 3PM to 6PM. Training is voluntary and marketed appropriately to all residents.

Training Location:

Classes will be held in the computer lab where the equipment will be located. This computer lab is connected to the main leasing center at 4400 Shining Star Drive, Sacramento, CA, 95823.

Technical Support:

Affineol will provide technical support either in-person, phone or online depending on the technical issue affecting the units.. Since these will be new units a maintenance contract has been signed for 2 hours of technical support per month.

Exp in Digital Literacy: Training partner TekTegrity has operated on the Central Coast since 2006 and provides technology training on an ongoing basis, especially in the areas of basic computer productivity, word processing and spreadsheet applications, and how to use email.

Project Name: Ocean View Manor

Project Location:

Street: 456 Elena St

City: Morro Bay

State/Province: CA

Zip/Postal Code: 93442

Rural? No   Number Units: 40

Currrent Wired: 40   Number Residents: 40

Funds Requested

Grant $0.00   Loan $0.00

Budget Detail:

Total Budget $15,989.00   Grant Total: $13,575.00

Matching Funds: $2,414.00

Adoption Activities:

Funding will establish a new digital literacy program. Chromebooks will be issued to participants of the program at the end of the 1 year term. These computers will be for up to 39 low-income seniors at this 40-unit apartment complex in Morro Bay, San Luis Obispo County. Partner organization will provide instruction of digital literacy classes to teach residents how to use the devices. During each training session, the device will be loaned to the participating residents; at the end of each training session, the device (i.e. Chromebook) must be returned to Peoples' Self-Help Housing. Any resident of Ocean View Manor who completes all eight (8) hours of training will receive a Chromebook that will be theirs to take home and use in their personal

Curriculum:

Training provider TekTegrity will provide their existing curriculum developed for new computer users. This curriculum includes general computer navigation, internet use and safety, and how to stay in contact with loved ones through the computer.

Provided Devices:

Applicant will provide devices to residents.1) Dell Chromebook 11 with Chrome OS, Intel® Celeron-N2840 processor, 2GB RAM DDR3L Memory, 16GB eMMC SSD Storage, and built-in Wi-Fi2) The device is new and the warranty is a 1 Year Limited Hardware Warranty: Mail-in; Customer supplies box, Dell pays shippingThese devices will be loaned to residents for the duration of each training session they attend. In addition, at the end of the last training session, each resident who has completed the entirety of the eight (8) hour digital literacy education program will receive a Chromebook to keep.

Economic Lives

Economic life for Chromebooks is 5+ years

Details:

Wiring to be done:

All units are wired.

Training Hours:

Each resident will have the opportunity to receive eight (8) hours of training.

Training Location:

Training classes will be held on the first floor of the community center at the property, so residents will not have to worry about transportation.

Technical Support:

IT provider Innovative IT will provide ongoing support for the duration of the training program, including on-site setup and monitoring of the labs during classes.

Training Hours:

Residents get the opportunity to test out of a class that qualifies for a subsidized device. All others are required to attend 8 hours of training to qualify. Learners have option of attending class weekly or working independently with a tutor.

Training Location:

The computer training will take place in community/computer room in the 4445 building. The unit is accessible.

Technical Support:

Technical support will be available through SFHDC's IT Consultants. The response time will be a 5 day turnaround (weekdays).

Adoption Activities:

The project will fund a needs assessment to understand what types of classes the communities would be interested in attending so we can best customize a training program to meet their needs. We will conduct outreach through special events, flyers, and regular communication given through our service coordinators. We will strive to reach each resident so they know about the opportunity to acquire a free or low cost computer to ensure that 75% of them begin using the internet at home. The project will also fund a paid training coordinator who will offer at least four hours of training a week as well as ongoing community outreach. We will partner with Community Technology Network who will recruit, train and support volunteers to

Curriculum:

We will utilize curriculum developed by Community Technology Network made specifically for older adults and has already been translated into Spanish and Chinese. This can be found on their Volunteer Learning Center (https://ctnvolunteerlearning.wikispaces.com/) as well as other useful tools for managing and maintaining a successful computer training program. There is a robust selection of websites with self-paced training that will be utilized. Some of which include:http://digitallearn.org/http://learnfree.org/https://www.digitalliteracyassessment.org/http://driveyourlearning.org/http://myjobscout.or

Grant $50,000.00   Loan $0.00

Budget Detail:

Total Budget $53,806.00   Grant Total: $45,967.00

Matching Funds: $7,839.00

Adoption Activities:

The project will fund a needs assessment to understand what types of classes the communities would be interested in attending so we can best customize a training program to meet their needs. We will conduct outreach through special events, flyers, and regular communication given through our service coordinators. We will strive to reach each resident so they know about the opportunity to acquire a free or low cost computer to ensure that 75% of them begin using the internet at home. The project will also fund a paid training coordinator who will offer at least four hours of training a week as well as ongoing community outreach. We will partner with Community Technology Network who will recruit, train and support volunteers to

Curriculum:

We will utilize curriculum developed by Community Technology Network made specifically for older adults and has already been translated into Spanish and Chinese. This can be found on their Volunteer Learning Center (https://ctnvolunteerlearning.wikispaces.com/) as well as other useful tools for managing and maintaining a successful computer training program. There is a robust selection of websites with self-paced training that will be utilized. Some of which include:http://digitallearn.org/http://learnfree.org/https://www.digitalliteracyassessment.org/http://driveyourlearning.org/http://myjobscout.or

Provided Devices:

- Samsung Galaxy Tablet 4 (7 inch Black) - $98.00 (new and comes with 1 year warranty)- ASUS E402MA 14 in, Intel Dual Core, 2 GB, 32 GB Laptop, Windows 10 (64 bit) Dk Blue - $199.00 (new and comes with 1 year warranty)

Economic Lives

2 - HP LaserJetPro M 277dw Wireless All-in-One Color Printer - $314.00 each (5 years useful life)22 - Samsung Galaxy Tablet 4 (7 inch Black) - $98.00 (4 year useful life)67 -ASUS E402MA 14 in, Intel Dual Core, 2 GB, 32 GB Laptop, Windows 10 (64 bit) Dk Blue - $199.00 (5 years useful life)7 - Balt Deluxe Floor Carrel Addition, 48"H x 32 3/4"W x 24 1/2"D, Black/Oak Double Work Stations - $300 (15 years useful life)7 - Brenton Studio Battista Low-Back Task Chair, Black @ $50.00 each (15 years useful life)

Details:

Wiring to be done:

NA

Training Hours:

Residents get the opportunity to test out of a class that qualifies for a subsidized device. All others are required to attend 8 hours of training to qualify. Learners have option of attending class weekly or working independently with a tutor.

Training Location:

 The computer training will take place in 73 Northridge, a 5 room unit within the scattered site property. The unit is accessible and classes will be held on the lower level of the unit.

Technical Support:

Technical support will be available through SFHDC's IT Consultants. The response time will be a 5 day turnaround (weekdays).
