

Access from AT&T Partner Portal

Technology has the ability to revolutionize education and empower lives, but only for those who can connect to it. Access to the Internet brings with it an opportunity to apply for jobs online, connect with family and friends, access virtual library shelves, research health questions, complete an online education-- and a whole lot more. The Access program from AT&T provides a more affordable way for low-income consumers to take advantage of these opportunities.

We are enlisting organizations across the country to partner with us to promote this valuable program. Please consider sharing information in your offices as well as in your mailings and other communications with those who might be eligible.

You may hear about us from one of our outreach partners:

EveryoneOn, a national nonprofit working to ensure all students have access to Internet service at home, is partner of the Access program from AT&T and will assist with outreach to school districts and communities. They will be holding digital literacy events to promote the offer.

Nonprofit Connected Nation has been working with states and communities across the country to close the digital divide for more than 13 years. Connected Nation will be coordinating with our partner organizations to provide collateral and collect feedback on offer promotional activity.

Collateral & Promotional Materials

Download electronic versions of Access from AT&T flyers and collateral, including specialized messaging for families with students, seniors, and others.

Materials are available in multiple languages.

AT&T Offer Flyer (California Only)

The digital world is full of possibilities. AT&T is making it easier to connect to friends, family, and the things that matter most.

Get started

AT&T is offering low-cost wireline home Internet service to qualifying households:

- With at least one resident who participates in the U.S. Supplemental Nutrition Assistance Program (SNAP) and
- With an address in AT&T's 21-state service area, at which we offer wireline home Internet service; and
- Without outstanding debt for AT&T fixed Internet service within the last six months or outstanding debt incurred under this program.
- If you are a California resident and at least one member of your household receives Supplemental Security Income (SSI) benefits you also may qualify based on the same requirements that apply to SNAP participants.

Service availability and speed may vary by address. AT&T will assign you the fastest of these speed tiers available* where you live:

- 10 megabits per second, for \$10 per month**
- 5 megabits per second, for \$10 per month
- 3 megabits per second, for \$5 per month
- 1.5 megabits per second, for \$5 per month
- 768 kilobits per second, for \$5 per month

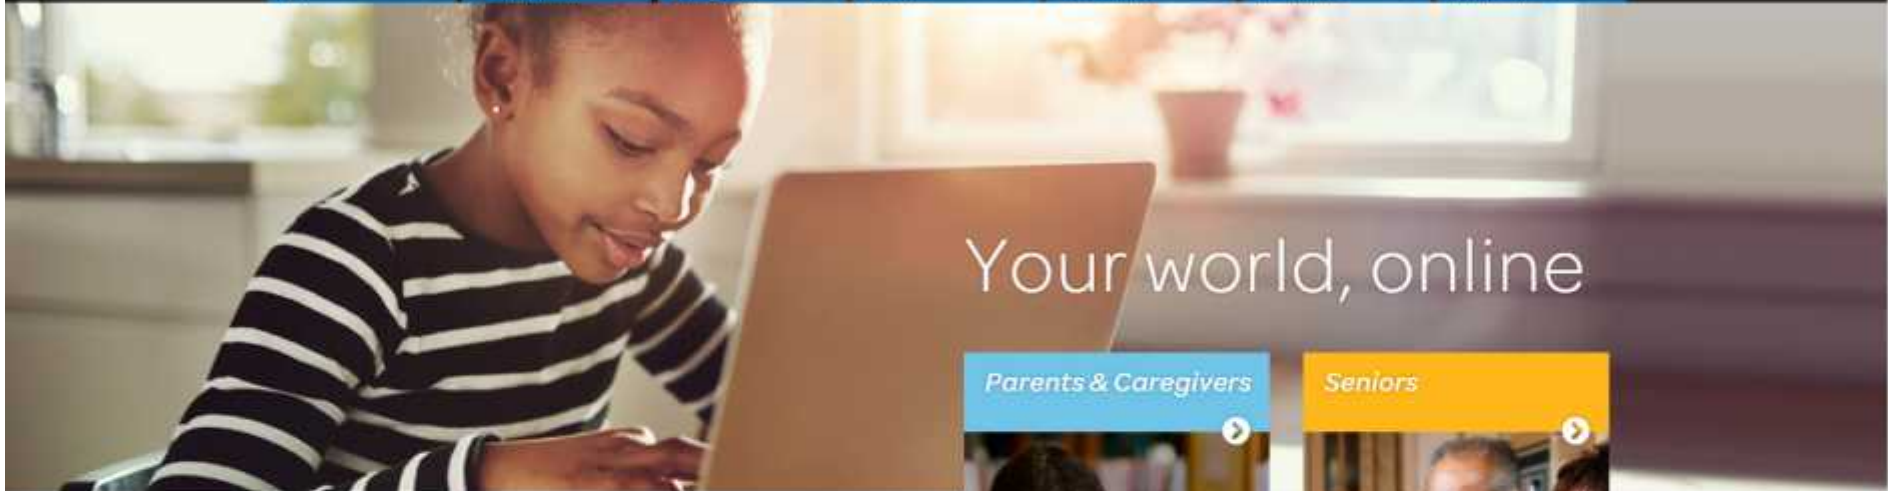

If none of the above speeds are technically available at your address, unfortunately you won't be able to participate in the Access program from AT&T at this time.

- ✓ In-home Wi-Fi gateway and access to the entire national AT&T Wi-Fi Hot Spot network - INCLUDED at no extra cost.
- ✓ No commitment
- ✓ No deposit
- ✓ No installation fee

Are you or someone in your household a SNAP participant? Are you a California resident and does at least one member of your household receive SSI benefits? If so, you could qualify for low-cost home internet under the Access program from AT&T. To find out for sure whether your household qualifies, follow the steps below.

Opportunity awaits!
Complete the steps below to confirm availability and apply for service.

1. Check availability
2. Apply for the program
3. Request service

Navigate with confidence

The digital age provides us with wonderful, life-enhancing opportunities as well as the occasional challenge. Whether you are getting your first device, your child is starting to explore the Internet, or you rely on your smartphone for everything from paying the bills to taking photographs, Digital You, created in collaboration with Common Sense Media, can help you with privacy, safety and security as you connect online.
